What is this product?

Type

This product is a share of an investment company qualifying as an undertaking for collective investment in transferable securities (UCITS).

Term

This sub-fund has no maturity date. However, the manufacturer may decide to close the sub-fund under certain circumstances.

Objectives

The objective of the sub-fund is to achieve both capital growth and stable income in the medium and long term, while following an asset allocation that provides, on average, over the long term, a weighting of approximately 80% in bonds, mostly denominated in EUR and incidentally in USD as well as around 20% in European and US equities.

For the purpose of international diversification and risk diversification, LUX-PORTFOLIO - DEFENSIVE invests:

- mainly in Investment Grade transferable securities or equivalent securities denominated in currencies of OECD countries;
- in a minority part, in large-cap equities, listed on major global stock exchanges, in particular in OECD countries;
- incidentally and within the limits set out in the Investment Restrictions of the prospectus, in warrants on transferable securities and in open-ended UCIs.

The sub-fund may hold cash and money market instruments on an ancillary basis which, at the time of their acquisition, have a residual maturity not exceeding twelve months.

The sub-fund's assets may include, for a minority share, securities of issuers domiciled and/or listed in emerging countries as well as UCIs/UCITS and/or other authorised instruments in accordance with point III. A) 1.1. of the prospectus on the emerging market-oriented.

For hedging purposes, the sub-fund may also use all of the financial derivative instruments and other techniques/instruments specified in the Investment Restrictions of the prospectus within the limits provided.

Benchmark: The portfolio is actively managed on a discretionary basis

without reference to a benchmark.

Intended retail investor

The sub-fund is particularly suitable for a security seeking investor wishing to participate in the performance of the EUR bond markets with a low exposure to the stock markets. The sub-fund is suitable both for individual investors wishing to invest in the equity market and for sophisticated investors wishing to achieve their investment objectives. The sub-fund is particularly suitable for medium and long-term investments, as capital losses may occur as a result of stock market fluctuations.

Other information

Depositary: Banque et Caisse d'Epargne de l'Etat, Luxembourg

Dividend income: This class is a capitalisation class meaning that income is reinvested.

Conversion right: The investor has the right to convert his investment in shares in one sub-fund for shares in the same sub-fund or in another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

Segregation: The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

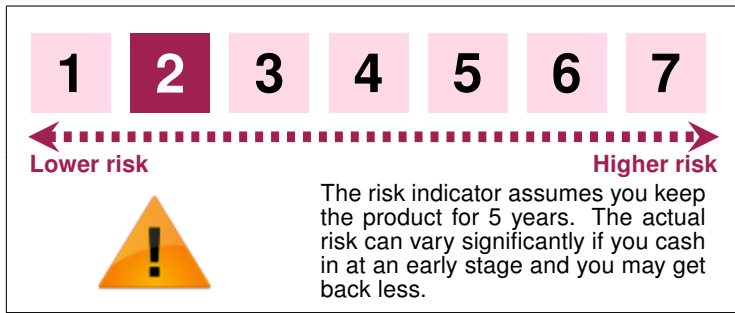

Additional information: Additional information about the fund, copies of its prospectus, the latest annual and semi-annual report and the latest prices of shares may be obtained free of charge from the management company or on www.spuerkeess-am.lu. The prospectus and the periodic reports are prepared for the entire fund and are available in French. The management company may inform you about other languages in which these documents are available.

This sub-fund was launched in 1998 and this share class in 1998.

The currency of the share class is expressed in EUR.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk

Performance scenarios

Recommended holding period: 5 years Example investment: 10,000 EUR		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	6,460 EUR	6,710 EUR
	Average return each year	-35.4 %	-7.7 %
Unfavourable	What you might get back after costs	8,200 EUR	8,650 EUR
	Average return each year	-18.0 %	-2.9 %
Moderate	What you might get back after costs	9,750 EUR	10,420 EUR
	Average return each year	-2.5 %	0.8 %
Favourable	What you might get back after costs	11,060 EUR	11,150 EUR
	Average return each year	10.6 %	2.2 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Unfavourable scenario: This type of scenario occurred for an invest-

ment

class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Be aware of currency risk. You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: Liquidity risk, Counterparty risk, Operational risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

ment between December 2021 and December 2023.

Moderate scenario: This type of scenario occurred for an investment between June 2015 and June 2020.

Favourable scenario: This type of scenario occurred for an investment between April 2014 and April 2019.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if Spuerkeess Asset Management S.A. is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depositary Banque et Caisse d'Epargne de l'Etat, Luxembourg. Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	474 EUR	1,060 EUR
Annual cost impact (*)	4.7 %	2.0 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.8% before costs and 0.8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	2.5% of the amount you pay in when entering this investment.	250 EUR
Exit costs	1.0% of your investment before it is paid out to you.	98 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.1% of the value of your investment per year. This is an estimate based on actual costs over the last year.	113 EUR
Transaction costs	0.1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	13 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 EUR

A maximum conversion fee of 0.5% is charged for the conversion of part or all of the shares.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

You should be prepared to stay invested for 5 years. However, you can redeem your investment without penalty at any time during this time, or hold the investment longer. Redemptions are possible on each full bank business day in Luxembourg. In exceptional circumstances, your right to request the redemption of your investment may be limited or suspended.
