www.spuerkeess-am.lu - Call (+352) 4015-1 for more information.
Competent Authority: The Commission de Surveillance du Secteur Financier is responsible for supervising the PRIIPS Manufacturer.

Date of production 14/02/2024

What is this product?

Type

This product is a share of an investment company qualifying as an undertaking for collective investment in transferable securities (UCITS).

Term

This sub-fund has no maturity date. However, the manufacturer may decide to close the sub-fund under certain circumstances.

Objectives

The objective of the sub-fund is to achieve medium and long-term capital growth through the investment in international equities, while allowing the investor to contribute to the energy transition. The energy transition is the main criterion in the investment policy with the aim of contributing to the decarbonisation of sectors.

LUX-EQUITY GREEN mainly invests in shares issued by companies domiciled and/or listed in OECD member states. The securities are mainly denominated in EUR and USD. The sub-fund dynamically aligns itself with the criteria recommended by the taxonomy of the European Union and applies the best practices of use on the market in order to contribute to the mitigation of climate change while taking care not to cause significant harm to other environmental objectives.

As a result, the sub-fund invests in companies that seek to improve their environmental footprint while ensuring their compliance with social criteria, which are assessed through an external ESG data provider.

The sub-fund benefits from an internal methodology, specially designed for this fund by Spuerkeess Asset Management S.A.. For this method, Spuerkeess Asset Management S.A. calls on external service providers for obtaining data. This data is then processed by the management company and the manager in accordance with the internal methodology. The management company and the fund manager are responsible for assessing the qualitative data. The selection is then made by the fund manager. The selection process and ESG methodology can be viewed by clicking on the link: https://www.bcee.lu/fileadmin/mediatheque/documents/lux_funds/lux_equity/Selection_Process_Lux-Equity_Green.pdf. Furthermore, the sub-fund has no exposure to producers of tobacco, alcohol, coal and conventional or unconventional weapons, pornography or games of chance.

The sub-fund may hold liquid assets within the authorised legal limits.

The assets of the sub-fund may include, for a minority part, securities of issuers domiciled and/or listed in emerging countries as well as UCIs/UCITS and/or other authorised instruments in accordance with point III. A) 1.1. of the emerging market-oriented prospectus.

The sub-fund will not use derivative financial instruments (such as, for example, forward exchange rates, futures, options, etc.) and other techniques / instruments set out in the prospectus.

Benchmark: The portfolio is actively managed on a discretionary basis without reference to a benchmark.

Intended retail investor

The sub-fund is particularly suitable for an investor wishing to participate in the evolution of international equities, especially those of companies which the manager considers to contribute to the energy transition and which are managed according to environmental, social and governance responsibility criteria. The sub-fund is suitable both for individual investors wishing to invest in the equity market and for sophisticated investors wishing to achieve their predefined investment objectives. The sub-fund is particularly suitable for medium and long-term investments, as capital losses may occur due to stock market fluctuations.

The class M is open to investors whose shares are subscribed under a discretionary management mandate exercised by a financial intermediary.

Other information

Depository: Banque et Caisse d'Epargne de l'Etat, Luxembourg

Dividend income: This class is a capitalisation class meaning that income is reinvested.

Conversion right: The investor has the right to convert his investment in shares in one sub-fund for shares in the same sub-fund or in another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

Segregation: The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

Additional information: Additional information about the fund, copies of its prospectus, the latest annual and semi-annual report and the latest prices of shares may be obtained free of charge from the management company or on www.spuerkeess-am.lu. The prospectus and the periodic reports are prepared for the entire fund and are available in French. The management company may inform you about other languages in which these documents are available.

This sub-fund was launched in 2020 and this share class in 2021.

The currency of the share class is expressed in EUR.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Be aware of currency risk. You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: Liquidity risk, Counterparty risk, Operational risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

Recommended holding period: 5 years

Example investment: 10,000 EUR

| | | If you exit after 1 year | If you exit after 5 years (recommended holding period) |
|---------------------|--|--------------------------|--|
| Scenarios | | | |
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | | |
| Stress | What you might get back after costs | 1,390 EUR | 1,320 EUR |
| | Average return each year | -86.1 % | -33.3 % |
| Unfavourable | What you might get back after costs | 8,170 EUR | 8,970 EUR |
| | Average return each year | -18.3 % | -2.2 % |
| Moderate | What you might get back after costs | 10,380 EUR | 14,640 EUR |
| | Average return each year | 3.8 % | 7.9 % |
| Favourable | What you might get back after costs | 13,240 EUR | 17,540 EUR |
| | Average return each year | 32.4 % | 11.9 % |

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and of a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Unfavourable scenario: This type of scenario occurred for an investment be-

tween December 2021 and December 2023.

Moderate scenario: This type of scenario occurred for an investment between December 2018 and December 2023, by referring to a benchmark.

Favourable scenario: This type of scenario occurred for an investment between October 2016 and October 2021, by referring to a benchmark.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if Spuerkeess Asset Management S.A. is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depositary Banque et Caisse d'Epargne de l'Etat, Luxembourg. Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested

| | If you exit after 1 year | If you exit after 5 years |
|------------------------|--------------------------|---------------------------|
| Total costs | 460 EUR | 1,325 EUR |
| Annual cost impact (*) | 4.6 % | 1.9 % each year |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.8% before costs and 7.9% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|--|---|--------------------------|
| Entry costs | 2.5% of the amount you pay in when entering this investment. | 250 EUR |
| Exit costs | 1.0% of your investment before it is paid out to you. | 98 EUR |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 1.0% of the value of your investment per year. This is an estimate based on actual costs over the last year. | 101 EUR |
| Transaction costs | 0.1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | 11 EUR |
| Incidental costs taken under specific conditions | | |
| Performance fees | There is no performance fee for this product. | 0 EUR |

A maximum conversion fee of 0.5% is charged for the conversion of part or all of the shares.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

You should be prepared to stay invested for 5 years. However, you can redeem your investment without penalty at any time during this time, or hold the investment longer. Redemptions are possible on each full bank business day in Luxembourg. In exceptional circumstances, your right to request the redemption of your investment may be limited or suspended.

How can I complain?

If you have any complaints about the product, the conduct of the PRIIPS Manufacturer or the person that advised on or sold this product, you can use different communication channels: by e-mail to compliance@spuerkeess-am.lu, by letter to Legal & Compliance Department, 19-21, Rue Goethe, L-1637 Luxembourg, by phone calling the number (+352) 26 895-90.

In all cases, the complainant must clearly indicate his/her contact details (name, address, phone number or email address) and provide a brief explanation of the claim. More information is available on our website www.spuerkeess-am.lu.
